

WRPS Maths Medium Term Planning: Autumn Term Year 3 Year 4

Week.	Mathematical aspect	Non-negotiable end points Year 3.	Non-negotiable end points Year 4.	Curriculum statements – Year 3.	Curriculum Statements. Year 4.								
1.	Number and place value: properties of place value,	Knows the properties of place value for three-digit numbers.	Knows the properties of place value for four-digit numbers.	<ul style="list-style-type: none">● To recognise the place value of each digit in a three-digit number (hundreds, tens, ones).● To compare and order numbers up to 1000.● To read and write numbers up to 1000 in numerals and in words.	<ul style="list-style-type: none">● To recognise the place value of each digit in a four-digit number (thousands, hundreds, tens, and ones).● To order and compare numbers beyond 1000.								
Links to resources and policy documents:				<div>400 + 90 + 2 492 Four hundred and ninety two</div> <div>500 + 40 + 7 547 Five hundred and forty seven</div> <div>200 + 4 204 Two hundred and four</div>	<div>Arrange the given digits to make a number that meets the given criteria.</div> <div>Between 3000 and 3500: 2, 9, 3, 4</div> <div><table><tr><td></td><td></td><td></td><td></td></tr><tr><td>TH</td><td>H</td><td>T</td><td>O</td></tr></table></div>					TH	H	T	O
TH	H	T	O										
2.	Counting and estimating	Knows how to count in step sizes and estimate numbers up to 1000.	Knows the rules of rounding.	<ul style="list-style-type: none">● To count from 0 in multiples of 4, 8, 50 and 100, finding 10 or 100 more or less than a given number.● To identify, represent and estimate numbers using different representations	<ul style="list-style-type: none">● To identify, represent and estimate numbers using different representations.● To round any number to the nearest 10, 100 or 1000.● To count in multiples of 6, 7, 9, 25, 1000.● To find 1000 more or less than a given number.								
<div><div><div><div>Positional</div><div>HTU 467</div><div>The 4 is worth 400 in 467</div></div><div><div>Additive</div><div>400607</div><div>400 + 60 + 7</div></div><div><div>Multiplicative</div><div>467</div><div>4 x 100 6 x 10 7 x 1</div></div><div><div>Base 10</div><div>467</div><div>The 4 is worth 4 hundreds in 467</div></div></div><div><div><div><div>1000s</div><div>100s</div><div>10s</div><div>1s</div></div><div><div>1000s</div><div>100s</div><div>10s</div><div>1s</div></div></div><div><div>3 x 1000 6 x 100 1 x 10 9 x 1</div></div></div></div>				<div>Continue the pattern 4, 8, 12, 16 8, 16, 32 0, 50, 100, 150</div> <div>Complete the pattern 100 200 400 600 800 1000</div> <div>Where would 50 lie on these number lines? <div><div>0 40 80 120 160 200</div><div>0 50 100 150 200</div></div></div> <div>What numbers are represented by the arrows? <div>100 200 250 300 350 400 450 500</div></div>	<div>Say whether each number on the number line is closer to 500 or 600.</div> <div><div>500 535 556 568 600</div></div> <div>Round 535, 556 and 568 to the nearest 100 Use the stem sentence: ____ rounded to the nearest 100 is ____.</div>								
3.	Addition and Subtraction: mental methods	Knows bonds to 20 and 100. Knows how to add/subtract multiples of 10, 100 from three-digit numbers.	Knows efficient methods for addition and subtraction up to and including four-digit numbers.	<ul style="list-style-type: none">● To add and subtract numbers mentally, including:<ul style="list-style-type: none">● a three-digit number and ones● a three-digit number and tens● a three-digit number and hundreds.● To solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction.	<ul style="list-style-type: none">● To add and subtract numbers with up to four digits using the efficient written methods of columnar addition and subtraction where appropriate.● To solve addition and subtraction two-step problems in contexts, deciding which operations and methods to use and why.								
Links to calculation policy mental methods:				<div>Which digit changes and which stay the same?</div> <div><div>543 + 1 543 + 10 543 + 100</div><div>543 - 1 543 - 10 543 - 100</div></div> <div><div>What facts will you use?</div><div>376 + 4 376 + 20 376 + 400</div></div> <div><div>What strategies will you use?</div><div>695 + 8 695 + 30 695 + 600</div></div>	<div>Write <, > or = in each of the circles to make the number sentences correct:</div> <div>3,456 + 789 ○ 1,810 + 2,436</div> <div>2,829 + 1,901 ○ 2,312 + 2,418</div> <div>7,542 + 1,858 ○ 902 + 8,496</div> <div>1,818 + 1,999 ○ 3,110 + 707</div>								

WRPS Maths Medium Term Planning: Autumn Term Year 3 Year 4

Week.	Mathematical aspect	Non-negotiable end points Year 3.	Non-negotiable end points Year 4.	Curriculum statements – Year 3.	Curriculum Statements. Year 4.															
4.	Addition and Subtraction: Written methods 2 and 3 digit numbers, column methods.	Knows how to calculate with columnar methods.	Knows efficient methods for addition and subtraction up to and including four-digit numbers.	<ul style="list-style-type: none">To add and subtract numbers with up to three digits, using the efficient written methods of columnar addition and subtraction.To estimate the answer to a calculation and use inverse operations to check answers.To solve problems, including missing number problems, using number facts, place value, and more complex addition and subtraction.	<ul style="list-style-type: none">To add and subtract numbers with up to four digits using the efficient written methods of columnar addition and subtraction where appropriate.To solve addition and subtraction two-step problems in contexts, deciding which operations and methods to use and why.To estimate and use inverse operations to check answers to a calculation.
